

INSTRUCTION TO AUTHORS

AGRIVITA, Journal of Agricultural Science, is a proper channel for publication of papers in plant sciences, agronomy, horticultural, plant breeding, soil-plant sciences and pest or disease-plant sciences. Manuscripts reporting experimentation or research in field crops within 5 years will be accepted for review as papers.

GUIDING PRINCIPLES

An acceptable manuscript will meet the following general criteria: it reports a worthwhile contribution to science, sound methodology was used and is explained with sufficient detail so that other capable scientists could repeat the experiments. Conclusions are supported by data, manuscripts is concise, well written, and understandable.

MANUSCRIPT FORMAT

Manuscript should be uploaded to AGRIVITA journal system and arranged in Agrivita standard format. Typed at one side of white paper of A4 size, in single column, 1.5 space line, 10 point Arial font and should be given line numbers. Margins on all four sides are 2 cm.

MANUSCRIPT TITLE

Title, consist of no more than 20 words. The title of the paper should be concise and informative. Avoid abbreviations and formula where possible. It should be written clearly and concisely describing the contents of the research.

AUTHORS

Manuscript has main author and co authors with full name of the author and co-authors (no abbreviation), includes address (es) and email addresses clearly.

ABSTRACT

The abstract comes after title page in the manuscript. Abstract must be integrated and independent which is consist of introduction and purpose, methods, results, conclusion and suggestion. However the abstract should be written as a single paragraph without these headers. For this reason, References should be avoided. Also, non-standard or uncommon abbreviations should be avoided, but if essential they must be defined at their first mention in the abstract itself. Abstract must be written not more than 200 words which has no reference and accompanied keywords.

KEYWORDS

The keywords should be avoiding general and plural terms and multiple concepts. Do not use words or terms in the title as keywords. These keywords will be used for indexing purposes. Keywords should not more than 5 words or phrases in alphabetical order.

INTRODUCTION

State the objectives of the work and provide an adequate background, avoiding a detailed literature survey or a summary of the results. Explain how you addressed the problem and clearly state the aims of your study. As you compose the introduction, think of readers who are not experts in this field.

MATERIALS AND METHODS

It should be mention time and place of research in first part. All materials and methods that used such chemical for analysis, treatment and experimental design must be stated clearly and briefly. State the objectives of the work and provide an adequate background, avoiding a detailed literature survey or a summary of the results. A Theory section should extend, not repeat, the background to the article already

dealt with in the Introduction and lays the foundation for further work. A calculation section represents a practical development from a theoretical basis.

RESULTS AND DISCUSSION

Result and discussion be written in same part. They should be presented continuously start from main result until supporting results and equipped with a discussion. Unit of measurement used should follow the prevailing international system.

CONCLUSION AND SUGGESTION

Conclusion should be explained clearly. Suggestion placed after conclusion contains a recommendation on the research done or an input that can be used directly by consumer.

ACKNOWLEDGEMENT

State the grant source and the person to whom the grant was given. Name the person to help you work.

REFERENCES

Articles have 10 recent references or over and 80% is journal. The most of references are primary ones (last five years). Unpublished data and personal communication should not be cited as literature citations. "In Press" articles that have been accepted for publication may be cited in references. Include in the citation the journal in which the "in press" article will appear and the publication date, if a date is available. All reference mentioned should be written down in reference using American Psychological Association (APA) style and arranged from A to Z.
