

## LIST OF AUTHOR VOLUME 37, 2015

Afandhi, A.	37(2):151-158	Mudakir, I.	37(1):89-96
Akanmu, A.O.	37(1):8-17	Mudjiono, G.	37(2):151-158
Arfarita, N.	37(1):1-7	Mulawarman	37(3):276-283
Arisoeslaningsih, E.	37(1):30-36	Mulia, R.H.	37(1):75-88
Aziz, S.A.	37(3):284-289	Muliadi	37(3):204-209
Bakri	37(3):237-246	Munir, M.	37(2):185-192
Basunanda, P.	37(1):45-50	Murdono, D.	37(2):115-122
Bello, B.O.	37(1):8-17	Murti, R.H.	37(1):18-23
Bernas, S.M.	37(3):237-246	Nasrullah	37(1):45-50
Budiman	37(1):30-36	Ntube, C.V.	37(1):8-17
Chankaew, S.	37(2):159-168	Nuraini, Y.	37(1):1-7
Damayanti, T.A.	37(2):108-114	Olawuyi, O.J.	37(1):8-17
Damiri, N.	37(3):276-283	Pramono, S.	37(2):178-184
Danial, E.	37(1):51-58	Prasman, Y.	37(2):151-158
Darmawati, I.A.P.	37(2):144-150	Pudjihartati, E.	37(2):178-184
Diningsih, E.	37(2):108-114	Pujiwati, H.	37(3):284-289
Djamilah	37(3):226-236	Purwanto, E.	37(1):59-66
Dwiyani, R.	37(2):144-150	Purwantoro, A.	37(2):178-184
Efendi, D.	37(3):210-219	Rana, S.	37(3):204-209
Fauziah	37(3):193-203	Retnowati, R.	37(2):185-192
Fikrinda, W.	37(3):210-219	Rohaeni, W.R.	37(3):265-275
Ghulamahdi, M.	37(3):284-289	Roy, S.	37(3):204-209
Hadini, H.	37(1):45-50	Rumanti, I.A.	37(2):169-177
Hapsari, L.	37(2):97-107	Sagiman, S.	37(3):258-264
Hapsari, R.I.	37(2):123-129	Santosa, M.	37(3):290-295
Hapsoro, D.	37(3):247-257		37(1):24-29
	37(1):51-58	Sari, D.I.	37(1):75-88
Haridjaja, O.	37(3):284-289	Sari, V.K.	37(1):18-23
Hastuti, U.S.	37(1):89-96	Satoto	37(2):169-177
Herawati, M.M.	37(2):178-184	Setyono, P.	37(1):59-66
Himawan, T.	37(3):220-225	Simarmata, M.	37(3):226-236
Imanudin, M.S.	37(3):237-246	Siregar, I.Z.	37(2):130-143
Islam, Md.S.	37(3):204-209	Siregar, U.J.	37(2):130-143
Jamil, A.	37(3):265-275	Siswanto, B.	37(1):1-7
Johnson, S.B.	37(3):265-275	Sitanggang, C.D.	37(3):226-236
Khumaida, N.	37(2):130-143	Sitompul, S.M.	37(1):75-88
Kongjaimun, A.	37(2):159-168	Soemarno	37(2):185-192
Krisnawati, E.	37(1):75-88	Somta, P.	37(2):159-168
Kurnia, T.D.	37(2):115-122	Srinives, P.	37(2):159-168
Lestari, S.U.	37(2):123-129	Sriyani, N.	37(3):247-257
Maghfoer, M.D.	37(3):290-295	Suada, K.	37(2):144-150
Mahadjoeno, E.	37(1):59-66	Suastika, G.	37(2):108-114
Mamun, S.A.	37(3):204-209	Sudadi	37(1):37-44
Mansur, I.	37(2):130-143	Sudrajat, D.J.	37(2):130-143
Mas'udah, S.	37(3):193-203	Sulakhudin	37(3):258-264
Mayadewi, N.N.A.	37(2):144-150	Sulistyaningsih, E.	37(2):178-184
Melati, M.	37(3):210-219	Suntari, R.	37(2):185-192

Suprpto, H.	37(3):220-225
Supyani	37(1):67-74
Suranto	37(1):59-66
Suryanto, A.	37(3):290-295
	37(1):24-29
Suryono	37(1):37-44
Susanto, S.	37(3):210-219
	37(2):108-114
Susanto, U.	37(3):265-275
Suswati, D.	37(3):258-264
Tarno, H.	37(3):220-225
Taryono	37(1):45-50
Taufiq, M.	37(1):75-88
Tedianto	37(1):59-66

Trimanto	37(2):97-107
Tusher, T.R.	37(3):204-209
Utomo, S.D.	37(3):247-257
Wahyuni, T.	37(3):276-283

## SUBJECT INDEX VOLUME 37, 2015

2.4-D	37(2):178-184
Acclimatization	37(1):51-58
Adaptation	37(2):115-122
Agarwood	37(3):276-283
Agronomic performance	37(2):169-177
Alfisol	37(1):37-44
Altitudes	37(1):59-66
Aluminium tolerant	37(3):284-289
Ameliorant	37(3):284-289
<i>Anthocephalus cadamba</i>	37(2):130-143
Antioxidant capacity	37(3):210-219
<i>Artemisia cina</i>	37(2):178-184
Atrazine	37(3):226-236
BA	37(2):178-184
Benzyladenine	37(1):51-58
Biocontrol agents	37(3):276-283
Biological control agent	37(1):67-74
Biomass production	37(3):226-236
Biourine	37(3):290-295
Black rice growth	37(1):30-36
Breeding	37(1):8-17
	37(1):45-50
Buffer modifications	37(1):18-23
Burnt soil	37(3):204-209
Carbohydrates	37(1):59-66
<i>Citrus grandis</i> (L.) Osbeck	37(3):210-219
CO <sub>2</sub> exchange rate (CER)	37(1):75-88
Coastal sediment	37(3):258-264
Cocoa and coffee pods wastes	37(1):89-96
Coconut water	37(2):144-150
Colored pulp	37(3):210-219
Comparative mapping	37(2):159-168
Corn	37(1):45-50
	37(3):237-246
Correlation	37(2):169-177
Cow manure	37(1):24-29
<i>Cucurbita moschata</i>	37(1):59-66
Damage intensity	37(2):151-158
Degradation	37(3):204-209
<i>Dianthus caryophyllus</i>	37(2):107-114
<i>Dioscorea</i>	37(2):97-107
	37(3):193-203
Diversity	37(2):97-107
	37(3):193-203
	37(3):247-257
DNA extraction	37(1):18-23

Drought tolerance	37(1):8-17
Dry and wet season	37(1):24-29
Dual-purpose	37(2):123-129
Endophytic bacteria	37(3):276-283
Entisol	37(1):37-44
Entisols	37(3):258-264
Environmental factors	37(1):30-36
Extra cellular	37(1):37-44
Fertilizer	37(1):51-58
Fertilizers of organic and inorganic	37(1):24-29
Flowering	37(2):159-168
Food source	37(1):97-107
Fruit production	37(2):151-158
<i>Fusarium</i>	37(1):67-74
<i>Fusarium</i> disease	37(3):276-283
GEI	37(3):265-275
Genetic variance	37(1):45-50
Genotype	37(2):115-122
	37(2):130-143
Genotypes	37(1):51-58
GGE analysis	37(3):265-275
<i>Glycine max</i> L. Merrill	37(1):75-88
Growth	37(2):130-143
Hybrid rice	37(2):169-177
Hypovirulent isolate	37(1):67-74
Interaction model	37(1):30-36
<i>In-vitro</i>	37(2):144-150
IPM	37(2):151-158
Lipids	37(1):59-66
Lowland	37(2):115-122
	37(2):169-177
Maize	37(1):8-17
	37(3):258-264
Media mixtures	37(1):51-58
Mercury	37(1):1-7
Mesotrione	37(3):226-236
Mineral soil	37(3):284-289
Model	37(1):75-88
Morphological characters	37(3):220-225
Mungbean	37(2):159-168
N-fixing bacteria	37(1):1-7
Nganjuk	37(2):97-107
N-NH <sub>4</sub> <sup>+</sup>	37(2):185-192
N-NO <sub>3</sub> <sup>-</sup>	37(2):185-192
Nutrient availability	37(3):258-264

Organic compost	37(3):226-236
Organic-inorganic fertilizer	37(3):290-295
Organic paddy field	37(1):30-36
Paddy	37(3):265-275
Paddy Ciherang	37(1):24-29
Pasuruan	37(3):193-203
Phyto-hormones	37(1):37-44
Phytoremediation	37(1):1-7
Plant growth	37(2):185-192
Platyrodinae	37(3):220-225
Pod number	37(1):75-88
Polyploidy	37(2):178-184
Population	37(2):130-143
Protein	37(1):59-66
Protocorms	37(2):144-150
P-solubilizing bacteria	37(1):1-7
<i>Pterocarpus indicus</i>	37(3):220-225
Quantitative trait loci	37(2):159-168
RAPD	37(3):247-257
Rhizobacteria	37(3):276-283
Root/vine ratio	37(2):123-129
RT-PCR	37(2):107-114
Sapodilla	37(1):18-23
Seed size	37(2):159-168
Seeded fruit	37(3):210-219
Sequence	37(2):107-114
Shallot var. Philippines	37(3):290-295
Soybean	37(1):75-88
Stability	37(3):265-275

Strawberry	37(2):151-158
Stress tolerance index	37(2):130-143
Subsurface drainage	37(3):237-246
Sugarcane	37(3):247-257
Sweet potato	37(2):123-129
The production of rice	37(2):185-192
<i>Thrips sp.</i>	37(2):151-158
Tidal lowlands	37(3):237-246
Tomato juice	37(2):144-150
Tombusviridae	37(2):107-114
Topsoil quality	37(3):204-209
<i>Treptoplastypus micrurus</i>	37(3):220-225
Tropical	37(2):115-122
Unburnt soil	37(3):204-209
Urea-humic acid	37(2):185-192
Utilization	37(2):97-107
<i>Vanda tricolor</i>	37(2):144-150
Variability	37(1):8-17
Varieties	37(3):193-203
Vertisol	37(1):37-44
Virulence assay	37(1):67-74
Water retention	37(3):237-246
Weed composition	37(3):226-236
West Kalimantan	37(3):258-264
Wheat	37(2):115-122
Wood sawdust	37(1):89-96
Yield and quality of white oyster mushroom	37(1):89-96

**LIST OF PEER REVIEWER VOLUME 37 YEAR 2015**

The Editorial Board, management staff of **Agrivita Journal of Agricultural Science** wish to recognize the enormous contribution made by the following scientist who provided expertise, insight and thoroughness of the reviews for the year 2015

Prof. Xinbin Feng  
(Institute of Geochemistry - Chinese Academy of Sciences (IGCAS))

Prof. Pablo Tittone  
(Farming Systems Ecology - Wageningen UR Plant Sciences)

Dennis B. Egli, PhD  
(Plant and Soil Sciences - University of Kentucky, Pennsylvania State)

Wang Pu  
(College of Agriculture and Biotechnology - China Agricultural University)

Rikiya Endoh, Ph.D  
(Microbe Division - Japan Collection of Microorganisms RIKEN BioResource Center Japan)

Koki Homma, Ph.D  
(Agronomy - Kyoto University Japan)

Hidenori Tanaka, Ph.D  
(Department of BioResource - University of Miyazaki Japan)

B. Mohan Kumar, PhD  
(Agronomy, Agroforestry and Climate Change - Indian Council of Agricultural Research (ICAR))

Assoc Prof. Magdi El-Sayed  
(Plant Science - University of Aswan, Egypt)

Dr. Sujin Patarapuwadol  
(Department of Plant Pathology - Kasetsart University Thailand)

Farzane Porianejad  
(Ministry of Jihad e-Agriculture - Islamic Republic of Iran)

Asst Prof. Yuko Takeuchi  
(Terrestrial Microbial Ecology - Kyoto University Japan)

Dr. Hussein Khaled  
(Soil Chemistry - University of Al-Azhar Cairo, Egypt)

Dr. Buang Abdullah  
(Genetics Plant Breeding - Indonesian Rice Research Institute)

Dr. Ragapadmi Purnamaningsih  
(Agricultural biotechnology - Indonesian Biotechnology and Genetic Resources Research Institute)

Prof. Iswandi Anas  
(Soil Science - Bogor Agricultural University Indonesia)

Prof. Eko Handayanto  
(Soil Organic Management - University of Brawijaya Indonesia)

Prof. Muhamad Syukur  
(Plant Breeding - Bogor Agricultural University Indonesia)

Prof. Totok Agung Dwi Haryanto  
(Plant Breeding - University of Jenderal Soedirman Indonesia)

Prof. Bambang Guritno  
(Agricultural Ecology, Cassava, Multiplecropping - University of Brawijaya Indonesia)

Prof. Yusnita  
(Plant Science - University of Lampung Indonesia)

Prof. Budi Marwoto  
(Plant Protection - Indonesian Ornamental Crops Research Institute)

Prof. Syekhfani  
(Soil Chemistry - University of Brawijaya Indonesia)

Prof. Nur Basuki  
(Plant Breeding - University of Brawijaya Indonesia)

Dr. Muhammad Akil  
(Soil Biology and Fertility - Indonesian Cereal Research Institute)

Dr. Ali Jamil  
(Biology and Soil Fertility - Indonesian Rice Research Institute)

Prof. Lita Soetopo  
(Plant Breeding - University of Brawijaya Indonesia)

Dr. Darmawan Saptadi  
(Plant Breeding - University of Brawijaya Indonesia)

Panca Jarot Santoso, M.Sc.  
(Plant Breeding - Indonesian Tropical Fruits Research Institute)

Prof. Kuswanto  
(Plant Breeding - University of Brawijaya Indonesia)

Dr. Bambang Tri Rahardjo  
(Plant Protection - University of Brawijaya Indonesia)

Prof. Estri Laras Arumingtyas  
(Department of Biology - University of Brawijaya Indonesia)

Hagus Tarno, PhD  
(Plant Protection - University of Brawijaya Indonesia)

Dr. Sholihin  
(Plant Breeding - Indonesian Legumes and Tuber Crops Research Institute)

Dr. Damanhuri  
(Plant Breeding - University of Brawijaya Indonesia)

Dr. Ellis Nihayati  
(Plant Secondary Metabolism - University of Brawijaya Indonesia)

Dr. Noer Rahmi Ardiarini  
(Plant Breeding - University of Brawijaya Indonesia)

Dewi Pramanik, M.Sc  
(Plant Breeding - Indonesian Ornamental Plant Research Center)

Dr. Chairani Martasari  
(Indonesian Citrus And Subtropical Fruits Research Institute)

Dr. Moch. Dawam Maghfoer  
(Agronomy - University of Brawijaya Indonesia)

Dr. Amran Muis  
(Plant Pest and Diseases - Indonesian Cereal Research Institute)

Dr. Rudi Hari Murti  
(Plant Breeding - University of Gadjah Mada Indonesia)

Karuniawan Puji Wicaksono, Ph.D  
(Environmental Resources - University of Brawijaya Indonesia)

Yosep Mau, Ph.D  
(Plant Pest and Diseases - University of Nusa Cendana Indonesia)

Dr. Budi Prasetya  
(Soil Science - University of Brawijaya Indonesia)

Dr. Eries Mustikarini  
(Plant Breeding - University of Bangka Belitung Indonesia)

Wahyu Kristanto, MS  
(Plant Breeding - University of Brawijaya Indonesia)

## INSTRUCTION TO AUTHORS

**AGRIVITA**, Journal of Agricultural Science, is the normal channel for publication of papers in plant sciences, agronomy, horticultural, plant breeding, soil-plant sciences and pest or disease-plant sciences. Manuscripts reporting experimentation or research in field crops will be accepted for review as papers.

### **Guiding Principles**

An acceptable manuscript will meet the following general criteria : it reports a worthwhile contribution to science, sound methodology was used and is explained with sufficient detail so that other capable scientists could repeat the experiments, conclusions are supported by data, manuscripts is concise, well written, and understandable.

### **Manuscript Format**

Manuscript should given in soft copy and arranged in Agrivita standard format, Title, Authors, Address and Email, Abstract, Key Words, Introduction, Material and Methods, Result and Discussion, Conclusion and Suggestion, Acknowledgment and References. Typed at one side of white paper of A4 size, in single column, double space, 10 point arial font and should given line numbers.

### **Manuscript Title**

Title, consist of not more than 20 words. It should be written clearly and concisely describing the contents of the research.

### **Authors**

Manuscript has main author and co authors. Full name author and co-authors, include address and email must be stated clearly.

### **Abstract**

State the objective is specific and clearly, as to what is to be obtained. Give a brief account of the methods. Identify scientific names of plants, other organisms, and chemicals. State results succinctly. State conclusions or recommendations and link this to the significance of the work. Abstract should not more than 200 characters which has no reference and accompanied keywords. Abstract must be integrated and independent which is consist of introduction and purpose, methods, results, conclusion and suggestion.

### **Introduction**

Presented briefly and clearly information concerning background, aim and purpose of the research.

### **Materials and Methods**

It should mention time and place of research in first part. All materials and methods that used such chemical for analysis, treatment and experimental design must be stated clearly and briefly.

### **Results and Discussion**

Result and discussion be written in same part. They should be presented continuously start from main result until supporting results and equipped with a discussion. Unit of measurement used should follow the prevailing international system.

### **Conclusions and Suggestion**

Conclusion should be explained clearly. Suggestion placed after conclusion contains a recommendation on the research done or an input that can be used directly by consumer.

### **Acknowledgements**

State the grant source and the person to whom the grant was given. Name the person to help you work

### **Reference**

The author–year notation system is required and completed. All reference that mentioned should be written down in reference and arranged from oldest to newest and from A to Z. Articles have 10 recent references or over and 60% is journal. The most of references are primary ones.
